American Recovery and Reinvestment Act Payments Soar Past \$4.3 Billion

More than \$4.3 BILLION

in Recovery Act payments are accelerating environmental cleanup

Small Business Contract Achievements

EM has awarded about \$2 billion — or one third of the \$6 billion from the Recovery Act — to small businesses. The EM Recovery Act Program has far exceeded EM's goal of awarding approximately 5 percent of funding to small businesses.

“The EM Recovery Act Program has helped many small businesses in the recent recession. Some of these small business owners have told me they were on the brink of shutting down or facing significant layoffs before the Recovery Act. Now, they can use the experience and training they obtained in the Recovery Act cleanup to compete in sectors of the economy where they weren't previously qualified.”

Acting EM Recovery Act Program Director
Thomas Johnson, Jr.

JOB HIGHLIGHTS

- According to FederalReporting.gov, a government-wide data collection system, EM Recovery Act sites reported a total of **9,809** full-time equivalent (FTE) employees between January and March 2011.
- EM collects a cumulative number of workers — which now is **32,988** — who have benefited from Recovery Act funding since the program's start in early 2009. That figure includes part-time, temporary, and full-time workers.

* EM completed Mound cleanup activities in October 2010

** FTEs reported in FederalReporting.gov as of May 3, 2011

Site	Spend Plan	Obligated to Contracts	Payments to Date
Argonne National Laboratory	\$79,000,000	\$79,000,000	\$50,260,963
